KEY PARTICIPATING ORGANIZATIONS

BANDALOOP seamlessly weaves dynamic physicality, intricate choreography and the art of climbing to turn the dance floor on its side. Founded by choreographer and artistic director Amelia Rudolph, BANDALOOP honors nature, community and the human spirit by bringing dance to new audiences, activating public and natural spaces, and re-imagining what dance can be.

Confluence Project is a donor-supported nonprofit that connects people to place through art and education. We work in collaboration with Northwest communities, tribes and celebrated artist Maya Lin to create reflective moments that can shape the future of the Columbia River system. We share stories of this river through six public art installations, educational programs, community engagement and a rich digital experience.

The **FOR-SITE Foundation** is a non-profit organization dedicated to the idea that art can inspire fresh thinking and important dialogue about our natural and cultural environment. Through exhibitions, commissions, artist residencies, and education programs, we support the creation and presentation of innovative art about place.

KUED is Utah's premier public broadcasting station airing quality programs 24 hours a day. KUED entertains, informs, and enriches our viewers with exceptional content and is a valued community resource.

The mission of **Lenora Lee Dance** is to create and present large-scale multimedia performance works integrating dance, original music, video projection, text and installation that connect various styles of movement and music to culture, history and human rights issues.

Save Ellis Island is committed to preserving the national treasure that is Ellis Island and establishing innovative education programs that celebrate the spirit of immigrants everywhere. Unframed by renowned artist JR will be on display throughout the hospital complex. The exhibit features life size historic photographs of Ellis Island immigrants installed on 16 interior walls.

We Players presents site-integrated performance events that transform public spaces into realms of participatory theater. We bring communities together, reclaiming local spaces for public discourse and civic celebration through art. Extending the transformative powers of performance beyond the stage, we invite our collaborators and audience to engage fully and awaken to the spectacular world around us.

Yosemite Renaissance is a non-profit organization for the arts of Yosemite. The organization hosts the Yosemite Artist-in-Residence Program and an annual juried exhibition with over 4,500 participating artists from across the country since its founding in 1984. Its goals are to bring together the works of contemporary artists that establish a continuum with past generations of Yosemite artists and help re-establish visual art as a major interpretive medium of the landscape and a stimulus to the protection of the environment.
