

Through the collaborative efforts of the Golden Gate National Parks Conservancy, National Park Service, Presidio Trust, and community volunteers, the Trails Forever initiative builds and maintains a world-class trail system north and south of the Golden Gate—while protecting resources and ensuring access to the parklands.

Similar brochures are available for the other Golden Gate National Parks in San Mateo County: Milagra Ridge, Phleger Estate, Rancho Corral de Tierra, and Sweeney Ridge.

## A GOLDEN GATE NATIONAL PARKS TRAIL MAP

# MORI POINT

## ENJOY YOUR PARKS TODAY Preserve Them for Tomorrow

### MORI POINT

Featuring coastal bluffs and 32 acres of wetland, the varied terrain of Mori Point in Pacifica provides for a wide array of experiences. Trails range from level and easy to steep and challenging. Whether you are exploring the beach or spotting the endangered San Francisco garter snake, it is easy to forget that this park was once the site of a quarry, roadhouse, and dirt bike course that impacted the park's resources. The 110-acre site was restored due in large part to the efforts of volunteers. Now you can help secure a healthy future for this national park site.

### VOLUNTEER OPPORTUNITIES IN SAN MATEO COUNTY

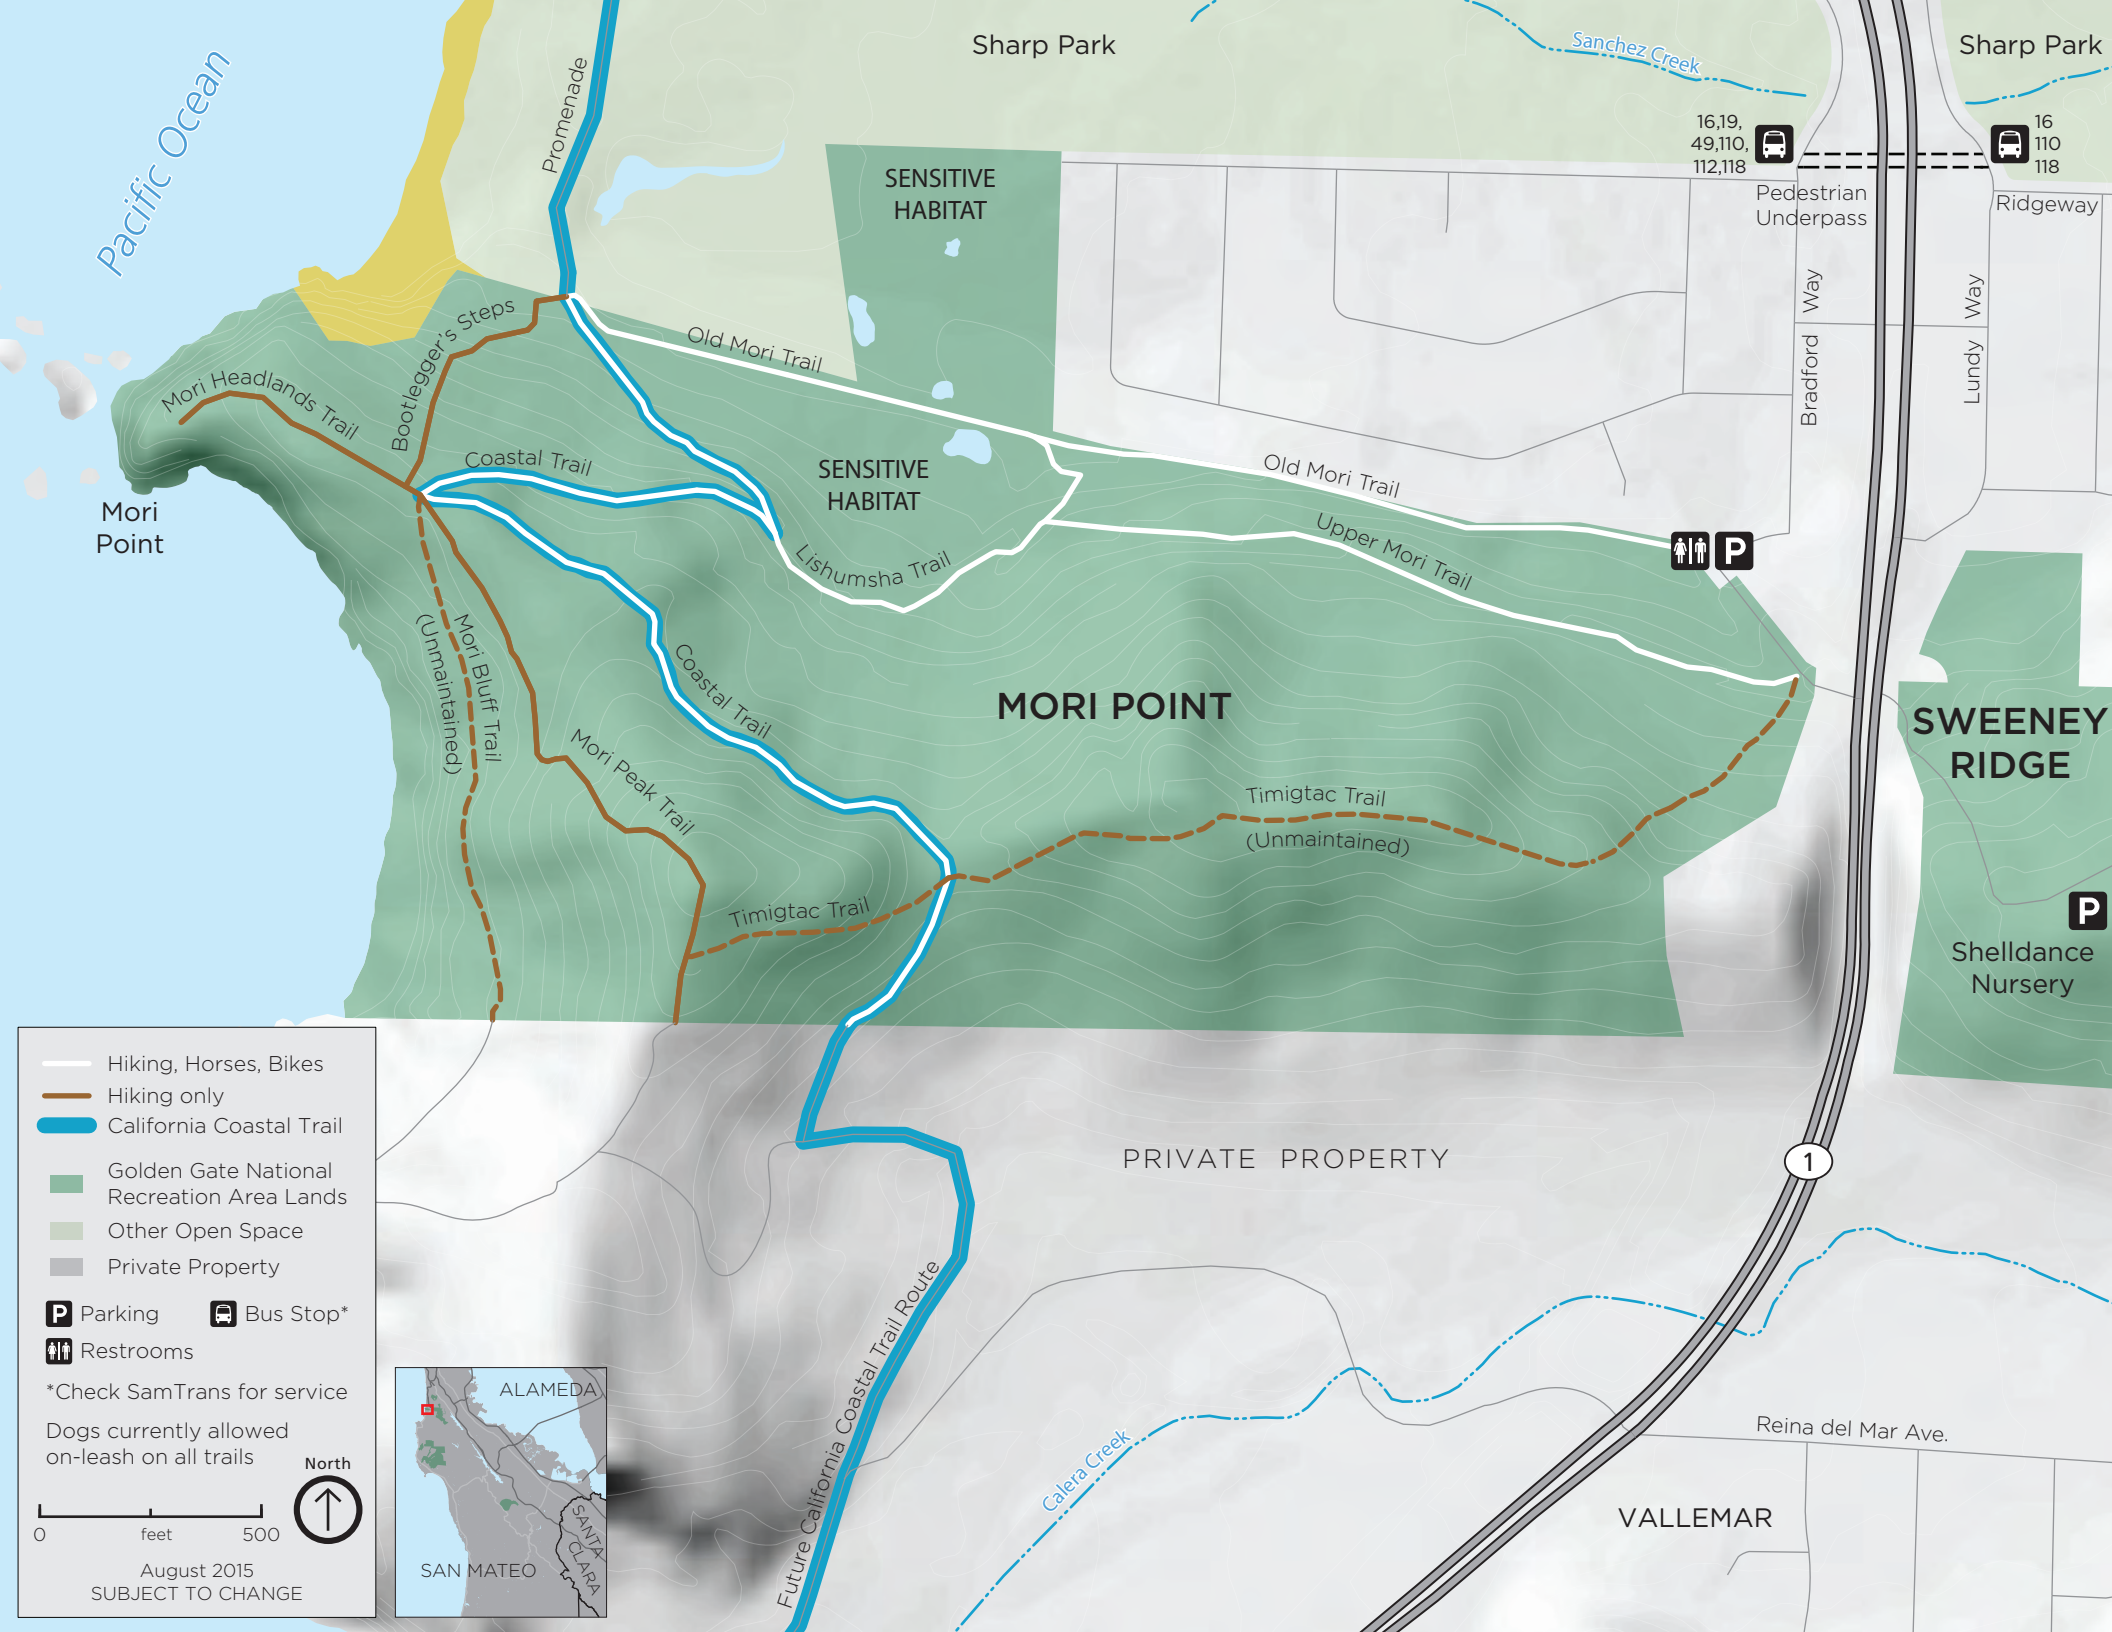

**PARK STEWARDSHIP** ✨ Restore habitat for endangered species such as the San Francisco garter snake, and learn all about local ecology. Volunteer projects are a combination of hands-on work and short natural history lessons.

**TRAILS FOREVER CREW** ✨ Your park trails need you! Join the Trails Forever crew and you'll help restore and

maintain trails, construct new routes, and protect sensitive natural habitat.

**GET STARTED—TODAY!** ✨ Most programs are ongoing, and offer regularly scheduled drop-in opportunities. Individual and group opportunities are available.
